

College and Career Readiness in Texas

What does it mean to be college and career ready?

How can we assist Texas educators in helping their students succeed?

What solutions are available?

Welcome to the Texas Online College and Career Readiness Resource Center, an incredible online course with over 250 free resources right at your fingertips. These resources include videos and interactive activities as well as tools that are built around the most recent research and best practices.

Explore areas of interest within the 22 lessons and navigate through interesting topics that all serve one purpose: creating postsecondary options for all students.

It is your tool, your resource, your learning, for your students.

So, what are you waiting for? Start building a college and career culture in your school today!
