

Transcript – A Side-by-Side TEKS Comparison

We have spent our time thus far looking exclusively at the revised TEKS. We will now explore a document that allows us to compare our current TEKS and the revised TEKS. As you may have noticed, there are concepts in each content area that may be new to the content area, or are no longer present in that content area. Some content may seem the same with some phrasing changes. The Side-by-Side TEKS comparison charts allow you to explore these changes to your content-level expectations.
