

Why Study Learning Progressions?

Destination

What students should know and be able to do

Plan to Connect

Learning progressions can help us do this

Current Location

Students' current knowledge and skills

Why Study Learning Progressions?

Understand the actual thinking of the children

Support teachers in the design and delivery of instruction or intervention

Create better formative and summative assessments to check for student understanding

Reflection

- What questions have been answered?
- Confirm what you knew about learning progressions.
- Modify any statements that may have been misconceptions.
