

Transcript – TxRCFP Scavenger Hunt

We are now going to do a scavenger hunt on the Texas Response to Curriculum Focal Points. We're going to explore the document. At this time, you will need your scavenger hunt page. You will also need your Highlights page. On the Highlights page you will notice that there is information that gives you a little better understanding of how the document is organized. You will use that, along with your Texas Response to Curriculum Focal Points, and your scavenger hunt page (found in your journal). Take a few moments to complete that.
