## Kindergarten – Grade 2 Original Problems

Kindergarten
K(6)(A) *identify two-dimensional shapes, including circles, triangles, rectangles, and squares as special rectangles.*

Students are shown cards with the following pictures of two-dimensional shapes and asked to name each shape.

Grade 1
1(5)(F) *determine the unknown whole number in an addition or subtraction equation when the unknown may be any one of the three or four terms in the equation.*

Determine the missing value.

$$4 + \boxed{} = 7$$

Grade 2
2(9)(D) *determine the length of an object to the nearest marked unit using rulers, yardsticks, meter sticks, or measuring tapes.*

Use a ruler to measure the snail's trail shown below.
